THE FOLLOWING ARE CONTRACTUAL TERMS AND CONDITIONS REQUIRED BY THE CODE OF VIRGINIA FOR STATEWIDE CONTRACTS.

1. APPLICABLE LAWS AND COURTS - §2.2-4364(E)

This solicitation and any resulting Contract shall be governed in all respects by the laws of the Commonwealth of Virginia and any litigation with respect thereto shall be brought in the courts of the Commonwealth. The Contractor shall comply with all applicable federal, state and local laws, rules and regulations.

2. ANTI-DISCRIMINATION - §2.2-4343(1)(E); §2.2-4310 and §2.2-4311

By submitting their bids, bidders certify to the Commonwealth that they will conform to the provisions of the Federal Civil Rights Act of 1964, as amended, as well as the Virginia Fair Employment Contracting Act of 1975, as amended, where applicable, the Virginians With Disabilities Act, the Americans With Disabilities Act and §2.2-4311 of the Virginia Public Procurement Act. If the award is made to a faith-based organization, the organization shall not discriminate against any recipient of goods, services, or disbursements made pursuant to the Contract on the basis of the recipient's religion, religious belief, refusal to participate in a religious practice, or on the basis of race, age, color, gender or national origin and shall be subject to the same rules as other organizations that Contract with public bodies to account for the use of the funds provided; however, if the faith-based organization segregates public funds into separate accounts, only the accounts and programs funded with public funds shall be subject to audit by the public body.

In every Contract over $10,000 the provisions in a. and b. below apply:

a. During the performance of this Contract, the Contractor agrees as follows:

1) The Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment, except there is a bona fide occupational qualification reasonably necessary to the normal operation of the Contractor. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.

2) The Contractor, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, will state that such Contractor is an equal opportunity employer.

3) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for meeting these requirements.

b. The Contractor will include the provisions of 1. above in every subcontract or purchase order over $10,000, so that the provisions will be binding upon each subcontractor or vendor.

3. ETHICS IN PUBLIC CONTRACTING - §2.2-4367

By submitting their bids, bidders certify that their bids are made without collusion or fraud and that they have not offered or received any kickbacks or inducements from any other bidder, supplier, manufacturer or subcontractor in connection with their bid, and that they have not conferred on any public employee having official responsibility for this procurement transaction any payment, loan, subscription, advance, deposit of money, services or anything of more than nominal value, present or promised, unless consideration of substantially equal or greater value was exchanged.

4. IMMIGRATION REFORM AND CONTROL ACT OF 1986 – required by federal law

By submitting their bids, bidders certify that they do not and will not during the performance of this Contract employ illegal alien workers or otherwise violate the provisions of the federal Immigration Reform and Control Act of 1986.

5. DEBARMENT STATUS - §2.2-4321

By submitting their bids, bidders certify that they are not currently debarred by the Commonwealth of Virginia from submitting bids on Contracts for the type of goods and/or services covered by this solicitation, nor are they an agent of any person or entity that is currently so debarred.

6. ANTITRUST – required by federal law

By entering into a Contract, the Contractor conveys, sells, assigns, and transfers to the Commonwealth of Virginia all rights, title and interest in and to all causes of action it may now have or hereafter acquire under the antitrust laws of the United States and the Commonwealth of Virginia, relating to the particular goods or services purchased or acquired by the Commonwealth of Virginia under said Contract.

7. PAYMENT - §2.2-4363 and §2.2-4354

a. To Prime Contractor:

1) Invoices for items ordered, delivered and accepted shall be submitted by the Contractor directly to the payment address shown on the purchase order/Contract. All invoices shall show the state Contract number and/or purchase order number; social security number (for individual Contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations).
2) Any payment terms requiring payment in less than 30 days will be regarded as requiring payment 30 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 30 days, however.
3) All goods or services provided under this Contract or purchase order, that are to be paid for with public funds, shall be billed by the Contractor at the Contract price, regardless of which public agency is being billed.
4) The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized under the Virginia Debt Collection Act.
5) Unreasonable Charges. Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, Contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges that appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Commonwealth shall promptly notify the Contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A Contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification. The provisions of this section do not relieve an agency of its prompt payment obligations with respect to those charges that are not in dispute.
b. To Subcontractors:

1) A Contractor awarded a Contract under this solicitation is hereby obligated:
(a) To pay the subcontractor(s) within seven (7) days of the Contractor's receipt of payment from the Commonwealth for the proportionate share of the payment received for work performed by the subcontractor(s) under the Contract; or
(b) To notify the agency and the subcontractor(s), in writing, of the Contractor's intention to withhold payment and the reason.
2) The Contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the Contract) on all amounts owed by the Contractor that remain unpaid seven (7) days following receipt of payment from the Commonwealth, except for amounts withheld as stated in (2) above. The date of mailing of any payment by U. S. Mail is deemed to be payment to the addressee. These provisions apply to each Subcontractor performing under the primary Contract. A Contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the Commonwealth.

8. MODIFICATIONS - §2.2-4309

This contract maybe modified in accordance with §2.2-4309 of the Code of Virginia. Such modifications may only be made by the representatives authorized to do so. No modifications to this contract shall be effective unless it is in writing

and signed by the duly authorized representative of both parties. No term or provision hereof shall be deemed waived and no breach excused unless such waiver or consent to breach is in writing.

Any contract issued on a firm fixed price basis may not be increased more than twenty five percent (25%) or $50,000.00 whichever is greater, without the approval of the Governor of the Commonwealth of Virginia or his authorized designee.

9. USE OF BRAND NAMES - §2.2-4315

Unless otherwise provided in this solicitation, the name of a certain brand, make or manufacturer does not restrict bidders to the specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article that the public body, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The bidder is responsible to clearly specify and identify the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable the Commonwealth to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Normally in competitive sealed bidding only the information furnished with the bid will be considered in the evaluation. Failure to furnish adequate data for evaluation purposes may result in declaring a bid nonresponsive. Unless the bidder clearly indicates in its bid that the product offered is an equal product, such bid will be considered to offer the brand name product referenced in the solicitation.

10. INSURANCE - §2.2-4332 and §65.2-800 et seq.

By signing and submitting a bid or proposal under this solicitation, the bidder or supplier certifies that if awarded the Contract, it will have the following insurance coverages at the time the Contract is awarded. For construction Contracts, if any subcontractors are involved, the subcontractor will have workers' compensation insurance in accordance with §§ 2.2-4332 and 65.2-800 et seq. of the Code of Virginia. The bidder or offeror further certifies that the Contractor and any subcontractors will maintain these insurance coverages during the entire term of the Contract and that all insurance coverages will be provided by insurance companies authorized to sell insurance in Virginia by the Virginia State Corporation Commission.

INSURANCE COVERAGES AND LIMITS REQUIRED:

a. Worker's Compensation - Statutory requirements and benefits.

b. Employers Liability - $100,000.

c. Commercial General Liability - $500,000 combined single limit. Commercial General Liability is to include Premises/Operations Liability, Products and Completed Operations Coverage, and Independent Contractor's Liability or Owner's and Contractor's Protective Liability. The Commonwealth of Virginia must be named as an additional insured when requiring a Contractor to obtain Commercial General Liability coverage.

d. Automobile Liability - $500,000 - Combined single limit. (Only used if motor vehicle is to be used in the Contract.)

11. ANNOUNCEMENT OF AWARD - §2.2-4300 et seq.

Upon the award or the announcement of the decision to award a contract over $30,000, as a result of this solicitation, the purchasing agency will publicly post such notice on the DGS/DPS eVA web site (www.eva.state.va.us) for a minimum of 10 days.

12. DRUG-FREE WORKPLACE - §2.2-4312

During the performance of this Contract, the Contractor agrees to (i) provide a drug-free workplace for the Contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the Contractor that the Contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing

clauses in every subcontract or purchase order of over $10,000, so that the provisions will be binding upon each subcontractor or vendor.

For the purposes of this section, “drug-free workplace” means a site for the performance of work done in connection with a specific Contract awarded to a Contractor, the employees of who are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the Contract.

13. NONDISCRIMINATION OF CONTRACTORS - §2.2-4343.1(H)

A bidder, offeror, or Contractor shall not be discriminated against in the solicitation or award of this Contract because of race, religion, color, sex, national origin, age, or disability or against faith-based organizations. If the award of this Contract is made to a faith-based organization and an individual, who applies for or receives goods, services, or disbursements provided pursuant to this Contract objects to the religious character of the faith-based organization from which the individual receives or would receive the goods, services, or disbursements, the public body shall offer the individual, within a reasonable period of time after the date of his objection, access to equivalent goods, services, or disbursements from an alternative provider.

14. eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION – §2.2-4301

(ii) The Technology equipped for nonvisual access shall be compatible with information technology used by other individuals with whom any blind or visually impaired user of the Technology interacts;

Compliance with the foregoing nonvisual access standards shall not be required if the head of the using agency, institution or political subdivision determines that (i) the Technology is not available with nonvisual access because the essential elements of the Technology are visual and (ii) nonvisual equivalence is not available.

Installation of hardware, software, or peripheral devices used for nonvisual access is not required when the Technology is being used exclusively by individuals who are not blind or visually impaired, but applications programs and underlying operating systems (including the format of the data) used for the manipulation and presentation of information shall permit the installation and effective use of nonvisual access software and peripheral devices.

If requested, the Contractor must provide a detailed explanation of how compliance with the foregoing nonvisual access standards is achieved and a validation of concept demonstration.

EXHIBIT A2

To Contract

VA-050709-FUJT

PRODUCTS & SERVICES, PRICING & CONTRACT USAGE INSTRUCTIONS

EXHIBIT A2 is hereby incorporated into and made an integral part of Agreement Number VA-050709-FUJT between Fujitsu and the Commonwealth of Virginia. In the event of any discrepancy between this EXHIBIT A2 and Contract VA-050709-FUJT, the provisions on pages 1 – 24 of Contract VA-050709-FUJT shall control.

- **PRODUCTS & SERVICES:** All product and related services (warranty upgrades, maintenance SLAs) pricing is contained in EXHIBIT "C", Suppliers Product Price List.

- **PRICING**: All pricing shown in EXHIBIT "C" is Not-to-Exceed pricing for the term of this contract. All "Percentage Discounts" indicated are fixed for the entire term of this contract. All purchase prices for each order are calculated by taking the appropriate percentage discount from the current price found at the indicated Index Price List Source (Fujitsu Computer Systems MAP), on the actual date of each order (this price cannot exceed the price for that product, if it is shown in EXHIBIT C). For items acquired through the standard order process, pricing will be determined by the contractor's current eVA catalog. For systems/items acquired through the RFQ order process, pricing will be determined by contractor's quotation. The contractor will calculate the quoted pricing by using the prices found at the index price list source, less the appropriate percentage discounts. Separate pricing may be submitted for Government vs. Academic to account for higher discounts to education and, if offered, are indicated in EXHIBIT C, the Index Price List Source and in the eVA catalog.

  - The Index Price List Source is a widely used, publicly available Index Price List that has a consistent basis of calculation and is available throughout the life of the contract, for instance, a GSA Contract/Price Schedule or a manufacturer's Suggested Retail Price List. If the basis of calculation for the Index Price List changes in a material fashion during the life of the contract, the Commonwealth and the contractor will renegotiate any Index Price List Source changes and pricing to ensure that the net price to the Commonwealth is consistent with percentage discounts calculated from the original index source. Any new Index Price List must be submitted to VITA for review at least 30 days prior to any request for contract modification.
  - It is important to remember that the net price indicated in the original price list, EXHIBIT "C", is a "not-to-exceed" price. Contractor may opt to be more competitive than this price for a specific purchase or a specific authorized user, but pricing shall never exceed the net price indicated in EXHIBIT "C".
- **Additional Discounts:** Transaction and Annual-Cumulative based discounts are shown in Exhibit "D". Users should check with Fujitsu to determine if additional discounts will apply when placing each standard process or RFQ process order.

- **CONTRACT USAGE INSTRUCTIONS:**

1. **<u>Standard Order Process:</u> Direct Orders placed in eVA, with pricing calculated from the Index Price List Source, without the benefit of a quote from the contractor, are considered an order using the Standard Order Process. This process is normally used for small, incidental items.**
   - In the standard process, authorized users will refer to a catalog-type Product/Price List, which will be available on eVA, to determine pricing for the required product. The authorized user will determine (on its own or by working with the contractor) the required specifications for the purchase. The authorized user will then create an eVA requisition for that product/supplier. The invoiced price for that product will not exceed (but may be lower than) the net price indicated for that product (or set of products) on the eVA Contract Catalog Product/Price list.

2. **<u>Request for Quote (RFQ) Order Process:</u> This process involves contacting one or more UNIX Products contractors and requesting that formal written quotes be provided. An eVA Requisition is created, based upon and referencing the contractor's quote received. Once the requisition has received the proper approvals, an eVA Direct Order is then issued to the contractor. This process is normally used for all but small, incidental purchases.**
   - In some instances, authorized users may be purchasing very large products or systems that justify price breaks above-and-beyond those offered in the "not-to-exceed" pricing indicated in the eVA catalog price lists. In this case, authorized users may complete and issue a Request for Quotation, or RFQ. In most cases where an RFQ is used, the authorized user will define the specifications of the required product(s) and/or service(s) and issue the RFQ to the appropriate contractors. Contractors will have a pre-determined amount of time to respond to the RFQ with qualitative responses (if requested) and a price quotation. Generally, the authorized user will select the contractor offering the lowest total cost proposal; however non-price factors may be included in the evaluation criteria for a given RFQ. The evaluation criteria, format, timing, and requirements will be clearly outlined on the RFQ document. In some situations, the authorized user may not identify the exact specifications required. If this is the case, the RFQ respondents will be given the opportunity to identify and propose their recommended specifications. Any purchase that is a result of the RFQ process will be subject to the Terms and Conditions specified and outlined in this Contract and any subsequent modifications. Additional Terms and Conditions may be requested or mandated within the RFQ document.

WARRANTY and MAINTENANCE

Contractor will supply a one-year minimum repair or replacement warranty period, or manufacturer's standard warranty, whichever is longer. For uplifts for increased warranty Service Levels (SLA), consult with the contractor for a quote or look in EXHIBIT "C", as various Service Levels may be priced there.
Maintenance is defined as repair or replacement services provided after the expiration of the warranty period. Maintenance services and various SLAs are priced in EXHIBIT "C".
Standard Principle Period of Maintenance (PPM), whether during the warranty period or follow-on Maintenance period, will be 8 AM to 5 PM, Monday through Friday, excluding state holidays, with next business day or 8 business hour response time, or manufacturer's standard PPM, whichever is more advantageous to the Commonwealth.

EXHIBIT D – Other Discounts:

- Transaction-based discounts apply to individual orders.
- Annual volume-based discounts are determined annually throughout the term of this agreement, including any renewal periods, from Fujitsu's April report of sales, which includes all contract sales through March 31st. Annual contract volume achieved from April 1st through March 31st will determine the additional discount applied for contract purchases beginning on the immediately following May 1st and continuing through April 30 of the following year. Fujitsu will adjust the Contract Discount in its eVA contract catalog to reflect the new achieved Annual volume-based discount, which is addition to the initial Contract Discount. Fujitsu will update its eVA catalog to reflect this change by May 1st of each year this agreement is in effect.
