VITA may, in its sole discretion, extend this Contract for up to two (2) additional one year periods after the expiration of the initial three (3) year period. VITA will issue a written notification to the Supplier stating the extension period not less than thirty (30) days prior to the expiration of any current term. Expiration of the term of the Contract shall mean that the service provided through licensing of Supplier's hosted software shall terminate at the conclusion of the period for which the software licenses have been paid. No perpetual licenses are granted by Supplier. In addition, performance of an order may survive the expiration of the term of this Contract, and all terms and conditions required for the operation of such order shall remain in full force and effect until Supplier has completely rendered the Licensed Services pursuant to such order.

B. Termination for Convenience

VITA may terminate this Contract, in whole or in part, or any order issued hereunder, in whole or in part, or an Authorized User may terminate an order, in whole or in part, upon not less than thirty (30) days prior written notice at any time for any reason ("Termination for Convenience"). In addition, VITA may immediately terminate this Contract, in whole or in part, or any order issued hereunder, if Supplier becomes a party excluded from Federal Procurement and Nonprocurement Programs. VITA shall provide written notice to Supplier of such termination, and Supplier shall provide prompt written notice to VITA if federal debarment proceedings are instituted against Supplier. Supplier shall submit for resolution any contractual dispute or order dispute to VITA, or any dispute regarding an order terminated by an Authorized User to such Authorized User, according to the terms of the Dispute Resolution Section of this Contract. Upon termination, neither the Commonwealth, nor VITA, nor any Authorized User shall have any future liability except for Licensed Services rendered or Application components delivered by Supplier prior to the termination date. Termination of this Contract or any order for Convenience shall not affect any service associated with software license subscription through the period for which the service was contracted, provided all fees for such license have been paid.

C. Termination for Breach or Default

If VITA or an Authorized User deems the Supplier to be in breach and/or default, VITA or the Authorized User shall issue, in writing, a "Show Cause Notice" to the Supplier identifying the failure and providing Supplier fifteen (15) days to cure the failure/nonperformance. If Supplier fails to answer the Show Cause Notice, or does not correct the deficiencies noted, VITA may immediately terminate this Contract or any order issued hereunder, in whole or in part, or the Authorized User may immediately terminate its order, in whole or in part. Such termination shall be deemed a Termination for Breach or Termination for Default. In addition, if Supplier is found by a court of competent jurisdiction to be in violation of or to have violated 31 USC 1352, VITA may immediately terminate this Contract, in whole or in part, for breach. VITA shall provide written notice to Supplier of such termination, and Supplier shall provide prompt written notice to VITA if Supplier is charged with violation of 31 USC 1352.

In the event of a Termination for Breach or Termination for Default, the affected Authorized User(s) shall not be liable for any cost related to the terminated Contract, order, or portion thereof. Supplier shall accept return of any products or software provided to the affected Authorized User(s), and Supplier shall refund any monies paid by any affected Authorized User for Licensed Services not accepted by such Authorized User pursuant to the Contract, order, or portion thereof terminated for breach and/or default. All costs of de-installation and return of product or software shall be borne by Supplier.

The failure of VITA or an Authorized User to exercise its right to terminate for breach and/or default under this provision shall not be construed as a waiver of its right to terminate for breach and/or default, rescind or revoke this Contract or any order issued hereunder in the event of any subsequent breach and/or default of any provisions of such agreements.

Supplier shall submit any contractual dispute to VITA or any order dispute to the terminating Authorized User for resolution according to the terms of the Dispute Resolution Section.

The terms of the Termination for Convenience and Termination for Breach or Default Sections shall not apply to termination for non-appropriation of funds.

- xxiv). Authorized User shall not reverse engineer, decompile, disassemble, or otherwise attempt to derive source code or other trade secrets from any of the software comprising or in any way making up a part of the Application.
- xxv). Authorized User shall not directly or indirectly copy or reproduce all or any part of the Application, whether electronically, mechanically or otherwise, in any form including, but not limited to, the copying of presentation, style or organization, without prior written permission from Supplier; provided, however, an Authorized User may reproduce and distribute any Application output generated from the relevant Authorized User Content, and an Application User may reproduce and distribute any Application output generated pursuant to the permissions set forth in the applicable Authorized User's order.
- xxvi). Authorized User shall not rent, lease, sublicense, resell for profit, loan, distribute, network or modify the Application or Supplier Product or any component thereof, provided as part of the Licensed Services, except as otherwise authorized by Supplier; however, an Authorized User may reproduce and distribute any Application output (e.g., reports) generated by Authorized User using the Application, and an Application User may reproduce and distribute any Application output generated by the Application User using the Application and pursuant to the permissions set forth in the applicable Authorized User's order.

- xxvii). Authorized User shall only use the Application and Supplier Product in the normal course of business, in connection with, and as part of, the Licensed Services.
- xxviii). Authorized User shall not attempt to gain unauthorized access to the Application or Licensed Services, other user accounts, computer systems or networks connected to the Licensed Services;
- xxix). Authorized User shall not remove, obscure or alter Supplier's proprietary notices, disclaimers, trademarks, or other proprietary rights notices of any kind affixed or contained in the Application or Licensed Services or any written or electronic report, output or result generated in connection with the Licensed Services;
- xxx). Authorized User shall take reasonable care not to, and shall not intentionally or knowingly, use the Application to post, transmit, distribute, store or destroy any information: (i) in violation of any applicable law, statute, ordinance or regulation; (ii) in a manner that shall infringe the intellectual property rights of others; (iii) that is defamatory or trade libelous, or (iv) that contains any Computer Viruses.
- xxxi). Authorized User shall not use the Application or Licensed Services for any illegal, obscene, offensive or immoral purpose.

C. Authorized User Proprietary Rights

Except as otherwise stated herein and with the exception of any applicable third-party rights, Content is and shall remain the sole and exclusive property of Authorized User, including all applicable rights to patents, copyrights, trademarks, trade secrets or other proprietary property rights thereto. Additionally, all right, title and interest in and to any Content relating to Authorized User's business shall remain the property of Authorized User, whether or not supplied to Supplier or uploaded into the Application. Nothing in this Contract shall be construed as conveying any rights or interest in Content to Supplier. Upon termination of an order issued hereunder, Supplier agrees to either provide the Content to the applicable Authorized User, or, at such Authorized User's request, certify in writing that said Content in all formats, have been destroyed.

9. TRANSITION ASSISTANCE

Upon execution of an order or Statement of Work pursuant to this Contract, Supplier and Authorized User will develop a transition plan ("Transition Plan") detailing each Party's respective tasks in connection with the orderly transition and migration of (i) all Content stored by Supplier pursuant to such order to Authorized User's archive and/or to a system or application maintained by Authorized User or a third party application service provider and, if applicable and agreed in writing by Authorized User and Supplier, (ii) the Application and Licensed Services to Authorized User or a third party service provider, such transition and migration to occur upon termination or expiration of the Contract or the applicable order. If Application User's Content stored on Supplier's servers is fully encrypted and such Authorized User content cannot be accessed by Supplier, and Authorized User has the ability through Supplier's service to copy and archive all such content on a system maintained by Authorized User or third-party and/or can be archived at the Application User desktop, this transition shall not be required.

At a minimum, the Transition Plan shall provide that upon expiration or termination of this Contract or the applicable order for any reason, Supplier will return all Content in its possession to the Authorized User in a format accessible without the use of Supplier's Application and, at Authorized User's option, continue to provide Licensed Services for up to six (6) months after the date of expiration or termination in order to facilitate Authorized User's transition to a new service provider and Supplier shall provide such reasonable assistance as may be requested by Authorized User to effectuate such transition.

In any event, regardless of whether a Transition Plan has been developed or implemented, Supplier shall, within thirty (30) days of expiration, completion, or termination of this Contract or any order issued hereunder, provide to all affected Authorized Users a complete set of all Content provided to Supplier by the relevant Authorized User and/or its Application Users and stored by the Application on behalf of such Authorized User, unless such Content is fully encrypted and not accessible to the Supplier. Supplier's failure to do so shall constitute a material breach of this Contract and, in addition

to the remedies set forth in this Contract, VITA or the affected Authorized User may exercise all available rights and remedies under law and equity.

The obligations set forth in this section and in any Transition Plan developed pursuant to an order issued pursuant to this Contract may extend beyond expiration or termination of the Contract for a period not to exceed six (6) months. In the event of a termination for breach and/or default of Supplier, or in the event of a termination due to Supplier's being included on the Lists of Parties Excluded from Federal Procurement and Nonprocurement Programs, Supplier shall perform such obligations at no charge or fee to VITA or any Authorized User; otherwise, Supplier shall perform such obligations at a reasonable hourly rate or a charge agreed upon by Supplier and VITA or an Authorized User.

10. FEES, ORDERING AND PAYMENT PROCEDURE

A. Fees and Charges

As consideration for the Licensed Services, including the rights of the Authorized User and its Application Users to access and use the Application(s) and any additional products and services provided hereunder, an Authorized User shall pay Supplier the fee(s) set forth on Exhibit B, which lists any and all fees and charges. The fees and any associated discounts shall be applicable throughout the term of this Contract; provided, however, that in the event the fees or discounts apply for any period less than the entire term, Supplier agrees that it shall not increase the fees more than once during any twelve (12) month period, commencing at the end of year one (1). No such increase shall exceed the lesser of three percent (3%) or the annual increase in the Consumer Price Index for All Urban Consumers (CPI-U), U.S. City Average, All Items, Not Seasonally Adjusted, as published by the Bureau of Labor Statistics of the Department of Labor (<http://www.bls.gov/cpi/home.htm>), for the effective date of the increase compared with the same index one (1) year prior. Any such change in price shall be submitted to all Authorized Users in writing in accordance with the above and shall not become effective for sixty (60) days thereafter. Supplier agrees to offer price reductions to ensure compliance with the Competitive Pricing Section.

B. Application Demonstration

At the request of any Authorized User, Supplier shall perform a demonstration of its Application and the Licensed Services at such Authorized User's location or conduct an online demonstration and at no charge.

C. Statement of Work (SOW)

An SOW shall be required for any Licensed Services ordered by an Authorized User pursuant to this Contract. All Licensed Services shall be provided in accordance with the Requirements and service levels set forth herein or in the applicable SOW and at the rates set forth in Exhibit B herein. An SOW shall be of a fixed price type but may contain a cost-reimbursable line item(s) for pre-approved travel expenses which shall be reimbursable by the Authorized User in accordance with the then-current per diem amounts as published by the Virginia Department of Accounts at http://www.doa.virginia.gov/Admin_Services/CAPP/CAPP_Topics/20335_1206.pdf or a successor URL(s).

Any change to an SOW must be described in a written change request. Either Party to an SOW may issue a change request that will be subject to written approval of the other Party, in the form of a modification to the SOW, before it becomes part of this Contract. An SOW from an Authorized User may contain additional terms and conditions; however, to the extent that the terms and conditions of the Authorized User's order are inconsistent with the terms and conditions of this Contract, the terms of this Contract shall supersede. In no event shall any SOW or any modification thereto require the Supplier to provide any products or services that are beyond the scope of this Contract as such scope is defined in Exhibit A hereto.

An SOW may designate certain of Supplier's personnel as Key Personnel or Project Managers. Supplier's obligations with respect to Key Personnel and Project Managers shall be described in the applicable SOW. Failure of Supplier to perform in accordance with such obligations may be deemed a default of this Contract or of such SOW.

D. Ordering

Notwithstanding all Authorized User's rights to license or purchase Supplier's products or services under this Contract, an Authorized User is under no obligation to purchase or license from Supplier any of Supplier's products or services. This Contract is optional use and non-exclusive, and all Authorized Users may, at their sole discretion, purchase, license or otherwise receive benefits from third party suppliers of products and services similar to, or in competition with, the products and services provided by Supplier.

Supplier is required to accept any order placed by an Authorized User through the eVA electronic procurement website portal (<http://www.eva.state.va.us>). eVA is the Commonwealth of Virginia's e-procurement system. State agencies, as defined in §2.2-2006 of the Code of Virginia, shall order through eVA. All other Authorized Users are encouraged to order through eVA, but may order through the following means:

xxxii). Purchase Order (PO): An official PO form issued by an Authorized User.

xxxiii). Any other order/payment charge or credit card process, such as AMEX, MASTERCARD, or VISA under contract for use by an Authorized User.

Additionally, Supplier may request that an Authorized User provide a completed copy of Supplier's Government Sales Agreement (GSA) incident to the fulfillment of an order. The GSA shall be used only for purposes of identifying quantities and price. In all instances, orders for which a GSA is completed shall be governed by this Contract and in the event of conflict, this Contract shall control. The submission of a GSA shall be in addition to, not in lieu of, ordering requirements under this Contract.

This ordering authority is limited to issuing orders for the Licensed Services and products or services related thereto and available under this Contract. Under no circumstances shall any Authorized User have the authority to modify this Contract. An order from an Authorized User may contain additional terms and conditions; however, to the extent that the terms and conditions of the Authorized User's order are inconsistent with the terms and conditions of this Contract, the terms of this Contract shall supersede.

Notwithstanding the foregoing, Supplier shall not accept any order from an Authorized User if such order is to be funded, in whole or in part, by federal funds and if, at the time the order is placed, Supplier is not eligible to be the recipient of federal funds as may be noted on any of the Lists of Parties Excluded from Federal Procurement and Non procurement Programs.

ALL CONTRACTUAL OBLIGATIONS UNDER THIS CONTRACT IN CONNECTION WITH AN ORDER PLACED BY ANY AUTHORIZED USER ARE THE SOLE OBLIGATION OF SUCH AUTHORIZED USER AND NOT THE RESPONSIBILITY OF VITA UNLESS SUCH AUTHORIZED USER IS VITA.

E. Invoice Procedures

Supplier shall remit each invoice to the "bill-to" address provided with the order promptly after all Licensed Services have been accepted and in accordance with the milestone payment schedule, if any, in the applicable order. Payment for Licensed Services shall be monthly in advance unless otherwise stated herein, or in any order referencing this Contract. No invoice shall include any costs other than those identified in the executed order, which costs shall be in accordance with Exhibit B. Without limiting the foregoing, all shipping costs are the Supplier's responsibility except to the extent such charges are identified in Exhibit B, or as noted in any executed order referencing this Contract. Invoices issued by the Supplier shall identify at a minimum:

xxxiv). Dates during which Supplier provided the Licensed Services to the Authorized User

xxxv). Quantity, charge and extended pricing for each Licensed Service

xxxvi). Applicable order date

xxxvii). This Contract number and the applicable order number

xxxviii). Supplier's Federal Employer Identification Number (FEIN).

Any terms included on Supplier's invoice shall have no force or effect and will in no way bind VITA or any Authorized User.

F. Purchase Payment Terms

All payment obligations under this Contract are subject to the availability of legislative appropriations at the federal, state, or local level, for this purpose. In the event of non-appropriation of funds, irrespective of the source of funds, for the items under this Contract, VITA may terminate this Contract, in whole or in part, or any order, in whole or in part, or an Authorized User may terminate an order, in whole or in part, for those goods or services for which funds have not been appropriated. Written notice will be provided to the Supplier as soon as possible after legislative action is completed. Termination for lack of appropriations shall not affect any perpetual license granted pursuant to this Contract, provided all fees for such license have been paid.

Supplier is responsible for the accuracy of its billing information. Supplier agrees not to issue invoices hereunder until items or milestones have met Acceptance criteria. Charges for Licensed Services accepted more than ninety (90) days prior to receipt of a valid invoice may not be paid. Should Supplier repeatedly over bill Authorized User, Authorized User may assess a one percent (1%) charge for the amount over billed for each month that such over billing continues.

In the event an Authorized User does not receive or have access to the applicable Documentation, payment shall not be due until the required Documentation is provided.

If there are any disputed items, an Authorized User shall pay all undisputed charges and promptly notify Supplier in writing of any disputed amount. Supplier shall thereupon review its records, and, if it does not concur with the Authorized User, provide the Authorized User with documentation to support the charge. If such charges remain in dispute, such dispute shall be resolved in accordance with the Dispute Resolution section of this Contract. In the absence of the Supplier's written evidence identifying the merit of the disputed amounts, Authorized User may not pay the disputed amounts and may consider the matter concerning the specific identified amounts closed. All payment terms are net thirty (30) days after Acceptance.

G. Supplier's Report of Sales and Industrial Funding Adjustment

By the 10th day of every month, the Supplier shall submit the "Supplier Monthly Report of Sales". A template showing the format in which the report is to be submitted and contact information for submission is available at <http://www.vita.virginia.gov/procurement/supplierResources.cfm> under "Supplier Reporting". The report shall be submitted via electronic mail to the VITA IFA Coordinator and shall report total sales (defined for purposes of this report as all invoiced payments received by Supplier from all Authorized Users) for this Contract during the preceding month. Supplier shall be responsible for submitting the monthly report of sales even if Supplier has had no sales (i.e., a \$0.00 total sales value) for the reporting period.

The Supplier shall submit the Industrial Funding Adjustment (IFA) payment for the period covered by such "Supplier Monthly Report of Sales" within thirty (30) days after submitting the "Supplier Monthly Report of Sales". The IFA payment is equal to two percent (2%) of total sales reported during the relevant month.

The IFA payment shall be submitted to VITA, Attention VITA Controller in the form of a check or electronic payment, made payable to the Treasurer of Virginia. The IFA payment shall reference this Contract number, "report amounts", and "report period" and shall be accompanied by a copy of the relevant "Supplier Monthly Report of Sales". Contact information for submission of IFA payments is available at <http://www.vita.virginia.gov/procurement/supplierResources.cfm> under "Supplier Reporting".

Failure to comply with reporting, payment and distribution requirements of this section may result in default of the Contract.

H. Small, Woman, and Minority-Owned Business (SWaM) Participation

Supplier and VITA agree to meet promptly after the Effective Date of this Contract to discuss the participation of Virginia Department of Minority Business Enterprise (DMBE)-certified Small, Woman, and Minority Owned Businesses (SWaMs) as subcontractors and second-tier suppliers under this Contract. Supplier and VITA will review Supplier's SWaM subcontracting plan, which

was submitted with Supplier's proposal, and SWaM subcontract reporting, and will discuss ways of encouraging SWaM participation and increasing subcontracting spend with SWaM suppliers.

Supplier and VITA agree to meet annually thereafter to review SWaM subcontracting reports and discuss further action with respect to SWaM subcontracting and spend.

Discussions regarding SWaM subcontracting may be held in conjunction with meetings of the Steering Committee, as described in the Steering Committee section of this Contract.

In addition, by the 10th day of every month, Supplier shall submit to VITA the Small, Woman, and Minority Owned Business (SWaM) Subcontracting Monthly Report (template available at <http://www.vita.virginia.gov/procurement/supplierResources.cfm>). Supplier's report should include spend on all Supplier's contracts with second-tier suppliers which provide products or services under this Contract. The report should specify the amount of such spend provided to SWaM vendors, by SWaM category, regardless of such SWaM vendors' certification status. Supplier shall submit the report to SWaM@vita.virginia.gov.

11. TRAINING AND DOCUMENTATION

The Licensed Service fee includes all costs for the training of one (1) Authorized User trainer at an Authorized User's designated location or via online training conducted by Supplier's training resources on the use and operation of the Application, including instruction in any necessary conversion of such Authorized User's Content and data for such use. Pursuant to a mutually agreed upon schedule, Supplier shall provide sufficient personnel experienced and qualified to conduct such training. Available optional training, and applicable pricing and discounts, are described in Exhibit B.

Supplier shall deliver to any Authorized User, three (3) complete hard copies or electronic media of Documentation, as requested by such Authorized User, or Authorized User may access from Supplier's website any and all online tutorials and make as many copies as desired. Any Authorized User shall have the right, as part of the license granted herein, to make as many additional copies of the Documentation, in whole or in part, for its own use as required. This Documentation shall include, but not be limited to, overview descriptions of all major functions, detailed step-by-step operating procedures for each screen and activity, and technical reference manuals, if such Documentation has been produced by Supplier. Such Documentation shall be revised to reflect any modifications made by Supplier to the Application. Any Authorized User shall have the right, as part of the license granted herein, at its own discretion, to take all or portions of the Documentation, modify or completely customize it in support of the authorized use of the Application and may duplicate such Documentation and include it in such Authorized User's document or platform. All Authorized Users shall continue to include Supplier's copyright notice.

12. COMMENCEMENT AND ACCEPTANCE OF LICENSED SERVICES

A. Licensed Services Commencement Date

The Supplier shall begin delivery of Licensed Services on the date requested by the Authorized User and agreed to by the Supplier in an order. An Authorized User may delay the Licensed Services commencement date by notifying the Supplier at least ten (10) business days before the scheduled Licensed Services commencement date.

B. Acceptance

The Application shall be deemed accepted when the Authorized User reasonably determines that such Authorized User and its Application Users can successfully access and use all functionalities of the Application which Supplier is required to provide to such Authorized User and its Application Users. Such Authorized User agrees to complete Acceptance testing within ten (10) business days after receiving written notice from Supplier of the ability of such Authorized User and its Application Users to access the Application. Such Acceptance testing includes Authorized User and its Application Users scheduling and completing Supplier's standard set-up, installation and orientation in order for VIACK to ensure proper operation of the newly downloaded application within the ten (10) business days that Users have to complete Acceptance testing, or such longer period as may be agreed in writing between Authorized User and Supplier. After such period, unless Authorized User notifies Supplier to the contrary, the Application shall be deemed accepted. Supplier agrees to provide to such Authorized User such

assistance and advice as such Authorized User may reasonably require, at no additional cost, during such Acceptance testing, other than pre-approved travel expenses incurred which will be reimbursable by such Authorized User at the then current per diem amounts set forth by the Virginia Department of Accounts and published at: http://www.doa.virginia.gov/Admin_Services/CAPP/CAPP_Topics/20335_1206.pdf or a successor URL(s). Authorized User shall provide to Supplier written notice of Acceptance upon completion of successful Acceptance testing.

C. Cure Period

If during the Acceptance test period, Authorized User is unable to access the licensed functionalities of the Application, Supplier shall provide Authorized User with such access, and such Authorized User's Application Users with their required access, within ten (10) business days of written notice of inability to access, or as otherwise agreed between the Authorized User and Supplier. In the event that Supplier fails to provide access to the licensed functionalities of the Application, such Authorized User may, in its sole discretion: (i) reject the Application in its entirety and recover amounts previously paid hereunder for those periods of performance in which access to licensed functionalities was not available; (ii) issue a "partial Acceptance" of the Application access with an equitable adjustment in the price to account for such deficiency; or (iii) conditionally accept the applicable Application access while reserving its right to revoke Acceptance if timely correction is not forthcoming.

If the Authorized User and its Application Users are unable to access the licensed functionalities of the Application after a second set of acceptance tests, Supplier shall be deemed in default of the order. In the event of such default, the Authorized User may, at its sole discretion, terminate its order, in whole or in part, for the Licensed Services to be provided thereunder by Supplier. Supplier shall accept return of any products provided to such Authorized User, and Supplier shall refund any monies paid by such Authorized User pursuant to the order, or portion thereof terminated. All costs of de-installation and return of product shall be borne by Supplier. This remedy is in addition to and not in lieu of any other remedies of the Authorized User set forth herein or available at law or in equity.

13. GENERAL WARRANTY

Supplier warrants and represents to VITA the Licensed Services and the Application described in Exhibit A as follows:

- xli). Supplier warrants that the Application and Licensed Services will conform in all material respects to the Requirements set forth in this Contract and any order issued hereunder, and the applicable specifications and Documentation, not including any post-Acceptance modifications or alterations to the Documentation which represent a material diminishment of the functionality of the Application, Licensed Services or Supplier Product; and that such

Application and Licensed Services are compatible with and will operate successfully when used on the equipment in accordance with the Documentation and all of the terms and conditions hereof.

- xlii). The Application provided hereunder is at the current release level; older versions are not available;
- xliii). No corrections, work arounds or future Application releases provided by Supplier shall degrade the Application, cause any other warranty to be breached, or require an Authorized User to acquire additional hardware equipment or software;
- xliv). Supplier warrants that all post-Acceptance Updates, changes, alterations or modifications to the Application, Licensed Services and Documentation by Supplier will be compatible with, and will not materially diminish the features or functionality of the Application, Licensed Services and/or Supplier Product when used on the equipment in accordance with the Documentation and all of the terms and conditions hereof.

Notwithstanding any rights granted under this Contract or at law, Supplier hereby waives under any and all circumstances any right it may have or may hereafter have to exercise Electronic Self-Help. Supplier agrees that an Authorized User may pursue all remedies provided under law in the event of a breach or threatened breach of this Section, including injunctive or other equitable relief.

D. Access to Product and Passwords

Supplier warrants that the Application and Licensed Services do not contain disabling code (defined as computer code designed to interfere with the normal operation of the Licensed Services or hardware or software of any Authorized User or its Application Users) or any program routine, device or other undisclosed feature, including but not limited to, viruses, worms, trojan horses, or other malicious code which is specifically designed to permit unauthorized access, delete, disable, deactivate, interfere with or otherwise harm the Application, Licensed Services or the hardware or software of any Authorized User or its Application Users. In addition, Supplier warrants that Authorized User and its Application Users will be provided commercially reasonable uninterrupted access to the Application and that Supplier will not cancel or otherwise terminate access to the Application by disabling passwords, keys or tokens that enable continuous use of the Application by the Authorized User and its Application Users during the term of this Contract or any order issued hereunder. Supplier further warrants that the Application and Licensed Services are compatible with and will operate successfully on the equipment.

E. Open Source

Supplier will notify all Authorized Users if the Application contains any Open Source code and identify the specific Open Source License that applies to any embedded code dependent on Open Source code, provided by Supplier under this Contract.

F. Supplier's Viability

Supplier warrants that it has the financial capacity to perform and continue to perform its obligations under this Contract; that Supplier has no constructive or actual knowledge of a potential legal proceeding being brought against Supplier that could materially adversely affect performance of this Contract and that entering into this Contract is not prohibited by any contract, or order by any court of competent jurisdiction.

G. Supplier's Past Experience

Supplier warrants that Supplier has provided the Licensed Services to a non-related third party customer of Supplier without significant problems due to the Licensed Services, the Application, or Supplier.

THE OBLIGATIONS OF SUPPLIER UNDER THIS GENERAL WARRANTY SECTION ARE MATERIAL. SUPPLIER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY CONCERNING MERCHANTABILITY OR FITNESS FOR ANY OTHER PARTICULAR PURPOSE.

14. RECORDS AND AUDIT

Supplier shall maintain accurate records and other evidence pertaining to the costs and expenses for all Licensed Services performed/delivered under any order issued pursuant to this Contract in support of its charges invoiced to Authorized User. Where applicable, the records will be to the extent and in such detail as will properly reflect all direct and indirect costs associated with such order. In addition, Supplier shall maintain accurate records of the Licensed Services, including but not limited to, the "Uptime" and "Downtime" as set forth in the Supplier Responsibilities Section. Authorized User shall have the right, at any reasonable time during regular business hours after giving reasonable advance notice, to inspect and audit the records applicable to its order(s). Supplier shall preserve such records for five (5) years after termination/completion of the Licensed Services agreed to under this Contract or any order issued hereunder.

15. APPLICATION AND LICENSED SERVICES SUPPORT

At any time during the term of any order issued pursuant to this Contract, Supplier shall provide the following Application Services (including unlimited telephonic support and all necessary travel and labor) without additional charge to any Authorized User in order to ensure such Authorized User and its Application Users are able to access and use the Application in accordance with the Requirements.

A. Coverage

Twenty-four (24) hours per day, seven (7) days a week, Supplier provide to any Authorized User all reasonably necessary telephone or written consultation requested by such Authorized User in connection with use, problems and operation of the Application.

B. Service Levels

Supplier will respond to such request for support of Licensed Services regarding the Application and Licensed Services, including Application, Supplier Product and Documentation in accordance with the procedures identified below. In each case, Authorized User may describe the problem by telephone, facsimile or electronic mail or via a web site provided by Supplier. Supplier shall use its best efforts to meet Response Time and Resolution Time and other obligations under this Contract.

Severity (Sample Problem)	Response Time	Resolution Time (Fix/work-around within)	Internal Escalation Procedure
1 (Application down) A severity 1 escalation would be classified as an issue that has caused the application to be unavailable and non-functional for all users across multiple networks.	Thirty (30) minutes	four (4) hours	[SUPPLIER TO COMPLETE] VIACK has multiple redundancy servers in place which will automatically failover in the event of a server outage. The servers themselves are located in a hardened facility, connected to 2 major

			<p>ISP backbones, ensuring no one single event can cause a service failure. In the event of service failure, VIACK ITOPS personnel are all notified automatically via an emergency paging system, receiving problem reports as they happen, 24/7, so that they may provide an instant response to the issue. IT Ops notifies the CTO/EVP of Engineering and the Program Executive of any such failures to ensure senior executive level involvement as may be needed.</p> <p>It is highly unlikely that a customer would ever experience an outage or unavailability of the application before IT Ops had already been notified and resolved the matter. The redundancy built into our system that hosts the application is such that the client would not experience an outage.</p>
<p>2 (certain processing interrupted or malfunctioning but Application is able to process)</p> <p>A severity 2 escalation would be classified as the issues appearing with the Audio or Video related to connectivity, a specific feature not functioning, or an error occurring due to a bug in the software.</p>	<p>Four (4) hours</p>	<p>twenty-four (24) hours</p>	<p>An escalation is initiated when the VIACK Client Services organization is unable to resolve a reported trouble from an Authorized User or Application User without Tier III technical support. When escalation is required, Client Services requests assistance from the VIACK IT Operations team. If necessary, IT Ops will escalate the issue to the engineers and developers following</p>

			<p>their own internal procedures.</p> <ul style="list-style-type: none">• As with any client issue, escalations will be documented in HEAT.• The HEAT ticket will be updated at each step by the CSA or whoever is working the escalation.• Escalations, via normal channels, will go through a Senior CSA or CS Manager. If all the above are unavailable, then an escalation can go directly to IT Ops.• Escalations need to be assessed by Severity and by Priority. Priority is defined by <u>who it is that is experiencing the issue</u>. Severity is defined by the impact of the issue on the customer operations or on VIACK operations if an internal escalation. <p>When an escalation is necessary to resolve an issue, the CSA escalates the issue to a senior CSA. The senior CSA will examine the issue, ensuring there is no quick fix or other steps available to resolve the issue prior to escalating to IT Ops. Client Services will also work with the User to gather logs that will be analyzed to determine the actual technical problem. If no resolution is immediately available, the senior CSA escalates the issue to IT Ops using phone, pager, email, or VIA3,</p>

			<p>and forwards all session logs to IT Ops and engineering. IT Ops will then respond within no more than 4 business hours with a possible solution or a request for more information. The senior CSA reviews the solution or request for more information with the CSA who received the customer request for assistance . The CSA then works with the User to apply the recommended solution or obtains the additional information requested by IT Ops or engineering. After contact with the client, the CSA reports the results to the senior CSA. If the issue is resolved by the solution provided, the CSA closes the HEAT ticket and the senior CSA reports to IT Ops that the issue has been resolved. If the issue isn't resolved, the senior CSA informs IT Ops and the information gathering process is repeated until the issue is resolved. The VIACK Vice President of Engineering and the VIACK CTO/EVP of Engineering oversee and are actively involved in highest level escalations through resolution.</p> <p>Through every step of the escalation process, the Program Executive is alerted and will intercede on the customer's behalf as appropriate to ensure</p>

<p>3 (minor intermittent malfunctioning, Application able to process data)</p> <p>A severity 3 escalation is classified as a 3rd party hardware, desktop, network or software issue that is effecting VIA3 functionality. The level of severity (e.g., 1, 2, 3), are defined in the table above and reported by Authorized Users.

C. Application Evolution

Should Supplier merge or splinter the Application previously provided to any Authorized User, such action on the part of Supplier shall not in any way result in any Authorized User being charged additional license or support fees in order to access the Application, to enable its Application Users to access the Application, or to receive enhancements, releases, upgrades or support for the Application.

16. SERVICE LEVELS AND REMEDIES

Supplier's failure to make the Licensed Services Available to Authorized User and its Application Users at least 99% of the time in any given month during the term of such Authorized User's order, excluding scheduled maintenance, shall be deemed a service level default ("Service Level Default") and Authorized User may obtain the non-exclusive remedies set forth below. For purposes of this Contract, "Available" means that Authorized User and its Application Users are able to access all features and functions of the Application and Licensed Services required by Authorized User, including but not limited to the Application and Supplier Product.

Service Level (Monthly)	Service Level Credit (Prorated Fees – Monthly)
Above 99%	0
98.99 – 97%	10%
96.99 – 95%	25%
94.99 – 93%	50%
Below 93%	100% and, at Authorized User's sole discretion, termination of such Authorized User's order

In the event Authorized User is eligible for a 100% Service Level Credit under this Section during any given month of the term of such Authorized User's order, Authorized User may terminate such order without penalty upon written notice to Supplier and, in addition to the remedies available under this Section, receive any additional remedies set forth in the Contract.

Credits shall be applied against the next invoice. In the event a Service Level Default occurs after VITA or an Authorized User has given notice of termination pursuant to the Term and Termination section of this Contract or due to non-appropriation of funds, or Authorized User has made final payment to Supplier for the Application and Licensed Services and no further invoices shall issue as a result, Supplier shall refund to Authorized User the amount of the appropriate Service Level Credit due for the period of default.

A. Reporting

Once each calendar month during the term of an order issued pursuant to this Contract, Supplier shall provide Authorized User with a written report that shall contain information with respect to the performance of the Application and Licensed Services, unless otherwise agreed upon by the Parties, and in conformity with the reporting Supplier provides to its other customers utilizing an application and licensed services identical or similar to the Application and Licensed Services provided to the Authorized User. If current customers do not receive monthly reports containing information with respect to the performance of the Application and Licensed Services, Supplier shall notify Authorized user of exceptions to service levels. Supplier and Authorized User may mutually develop performance reporting. Representatives of Supplier and Authorized User shall meet as often as may be reasonably requested by either Party, and mutually agreed upon, but no less often than once each calendar quarter, to review Supplier's performance of Licensed Services and the performance of the Application and to discuss technical plans, financial matters,

system performance, service levels and for any other matters related to this Contract or such Authorized User's order that may be reasonably requested by either Supplier or Authorized User. Authorized User may independently audit the report at its expense no more than two (2) times annually.

B. Failure to Meet Service Level Commitments

In the event that such Application fails to meet the Service Levels specified herein, Supplier will: (i) promptly replace the Application with an Application that conforms to this Contract and such specifications; (ii) repair the Application, at Supplier's expense, so that it conforms to this Contract and such specifications; or (iii) refund to Authorized User all fees paid for the Application and the Licensed Services after the failure of the Application to meet the Service Levels. In the event Supplier fails to comply with these remedies, Authorized User may exercise all available rights and remedies under law and equity.

C. Escalation Procedures

[To be provided by Supplier]

An escalation is initiated when the VIACK Client Services organization is unable to resolve a reported trouble from an Authorized User or Application User without Tier III technical support. When escalation is required, Client Services requests assistance from the VIACK IT Operations team. If necessary, IT Ops will escalate the issue to the engineers and developers following their own internal procedures.

- As with any client issue, escalations will be documented in HEAT.
- The HEAT ticket will be updated at each step by the CSA or whoever is working the escalation.
- Escalations, via normal channels, will go through a Senior CSA or CS Manager.
 - If all the above are unavailable, then an escalation can go directly to IT Ops.
- Escalations need to be assessed by Severity and by Priority.
 - Priority is defined by who it is that is experiencing the issue and Authorized Users may define special priority for individual users.
 - Severity is defined by the impact of the issue on the customer operations or on VIACK operations if an internal escalation.

When an escalation is necessary to resolve an issue, the CSA escalates the issue to a senior CSA. The senior CSA will examine the issue, ensuring there is no quick fix or other steps available to resolve the issue prior to escalating to IT Ops. Client Services will also work with the User to gather logs that will be analyzed to determine the actual technical problem. If no resolution is immediately available, the senior CSA escalates the issue to IT Ops using phone, pager, email, or VIA3, and forwards all session logs to IT Ops and engineering. IT Ops will then respond within no more than 4 business hours with a possible solution or a request for more information. The senior CSA reviews the solution or request for more information with the CSA who received the customer request for assistance. The CSA then works with the User to apply the recommended solution or obtains the additional information requested by IT Ops or engineering. After contact with the client, the CSA reports the results to the senior CSA. If the issue is resolved by the solution provided, the CSA closes the HEAT ticket and the senior CSA reports to IT Ops that the issue has been resolved. If the issue isn't resolved, the senior CSA informs IT Ops and the information gathering process is repeated until the issue is resolved. The VIACK Vice President of Engineering and the VIACK CTO/EVP of Engineering oversee and are actively involved in highest level escalations through resolution.

Through every step of the escalation process, the Program Executive is alerted and will intercede on the customer's behalf as appropriate to ensure customer satisfaction.

17. COMPETITIVE PRICING

Supplier warrants and agrees that each of the charges, economic or product terms or warranties granted to VITA pursuant to this Contract are comparable to or better than the equivalent charge, economic or product term or warranty being offered to any commercial or government customer of Supplier. If Supplier enters into any arrangements with another customer of Supplier or with an Authorized User to provide Licensed Services under more favorable prices, as the prices may be indicated on Supplier's current U.S. and International price list or comparable document, then this Contract shall be deemed amended as of the date of such other arrangements to incorporate those more favorable prices, and Supplier shall immediately notify VITA of such change.

18. CONFIDENTIALITY

A. Treatment and Protection

Each Party shall (i) hold in strict confidence all Confidential Information of any other Party, (ii) use the Confidential Information solely to perform or to exercise its rights under this Contract, and (iii) not transfer, display, convey or otherwise disclose or make available all or any part of such Confidential Information to any third-party. However, an Authorized User may disclose the Confidential Information as delivered by Supplier to subcontractors, contractors or agents of such Authorized User that are bound by non-disclosure contracts with such Authorized User. Each Party shall take the same measures to protect against the disclosure or use of the Confidential Information as it takes to protect its own proprietary or confidential information (but in no event shall such measures be less than reasonable care).

B. Exclusions

The term "Confidential Information" shall not include information that is:

- i). in the public domain through no fault of the receiving Party or of any other person or entity that is similarly contractually or otherwise obligated;
- ii). obtained independently from a third-party without an obligation of confidentiality to the disclosing Party and without breach of this Contract;
- iii). developed independently by the receiving Party without reference to the Confidential Information of the other Party; or
- iv). required to be disclosed under The Virginia Freedom of Information Act (§§2.2-3700 et seq. of the Code of Virginia) or similar laws or pursuant to a court order.

C. Return or Destruction

Supplier shall retain data files on its servers from each conference for ten (10) days after the completion of the conference. Ten (10) days after each conference, Supplier shall destroy all data files on its servers from that conference. At such time that Supplier audits and stores audio and/or video files on its servers, the same retention and destruction requirements shall apply. (Server-side auditing of audio sessions will be available in VIACK's next software release, generally available in March, 2008. Client-side auditing of audio sessions and auditing of video sessions are planned for release and general availability in March, 2009.) Such destruction of retained data files does not include the desktop log files and workspace files managed/owned by the Authorized User's designated account manager and individual Application Users. Users are responsible for destruction of files stored on their desktops in accordance with the policies of the Authorized User organization and/or VITA.

Upon the termination or expiration of this Contract or upon the earlier request of the disclosing Authorized User, Supplier shall (i) at its own expense, (a) promptly return to the disclosing Authorized User all tangible Confidential Information (and all copies thereof except the record required by law) of the disclosing Authorized User, or (b) upon written request from the disclosing Authorized User, destroy such Confidential Information and provide the disclosing Authorized User with written certification of such destruction, and (ii) cease all further use of the Authorized User's Confidential Information, whether in tangible or intangible form.

VITA or the Authorized User shall retain and dispose of Supplier's Confidential Information in accordance with the Commonwealth of Virginia's records retention policies or, if Authorized User is not subject to such policies, in accordance with such Authorized User's own records retention policies.

D. Certification

The Supplier Program Executive, with duly authorized signature authority and who shall be covered by Directors and Officers insurance required under that section titled "Insurance," shall certify such compliance with all security and confidentiality obligations under this Contract on an annual basis no later than each anniversary of contract execution. Additionally, the Supplier Program Executive shall certify the destruction of data files for each conference as provided in "Return or Destruction" above. Supplier shall deliver certifications to the Authorized User no later than one month after destruction or as is otherwise requested by the Authorized User. Certification of destruction may be aggregated for multiple conferences.

19. LIABILITY AND INDEMNIFICATION

Supplier agrees to indemnify, defend and hold harmless the Commonwealth, VITA, any Authorized User, their officers, directors, agents and employees ("Commonwealth's Indemnified Parties") from and against any and all third party claims, demands, proceedings, suits and actions, including any related liabilities, obligations, losses, damages, fines, judgments, settlements, expenses (including attorneys' and accountants' fees and disbursements) and costs (each, a "Claim" and collectively, "Claims"), incurred by, borne by or asserted against any of Commonwealth's Indemnified Parties to the extent such Claims in any way relate to, arise out of or result from: (i) any intentional or willful misconduct or negligence of any employee, agent, or subcontractor of Supplier, (ii) any act or omission of any employee, agent, or subcontractor of Supplier, (iii) breach of any representation, warranty or covenant of Supplier contained herein, (iv) any defect in the Application or the Licensed Services, (v) any actual or alleged infringement or misappropriation of any third party's intellectual property rights by the Application or any of the Licensed Services, or (vi) loss of Content provided to Supplier due to Supplier's failure to back up Content in accordance with the Contract. Selection and approval of counsel and approval of any settlement shall be accomplished in accordance with all applicable laws, rules and regulations. For state agencies the applicable laws include §§ 2.2-510 and 2.2-514 of the Code of Virginia. In all cases the selection and approval of counsel and approval of any settlement shall be satisfactory to VITA or the Authorized User against whom the claim has been asserted.

In the event that a Claim is commenced against any of Commonwealth's Indemnified Parties alleging that use of the Application or that the provision of Licensed Services under this Contract infringes any third party's intellectual property rights and Supplier is of the opinion that the allegations in such Claim in whole or in part are not covered by this indemnification provision, Supplier shall immediately notify VITA and the affected Authorized User(s) in writing, via certified mail, specifying to what extent Supplier believes it is obligated to defend and indemnify under the terms and conditions of this Contract. Supplier shall in such event protect the interests of the Commonwealth's Indemnified Parties and secure a continuance to permit VITA and the affected Authorized User(s) to appear and defend their interests in cooperation with Supplier as is appropriate, including any jurisdictional defenses VITA or the affected Authorized User(s) may have.

In the event of a Claim pursuant to any actual or alleged infringement or misappropriation of any third party's intellectual property rights by the Application or any of the Licensed Services, and in addition to all other obligations of Supplier in this Section, Supplier shall at its expense, either (a) procure for all Authorized Users and their Application Users the right to continue use of such infringing Application or Licensed Services, or any component thereof; or (b) replace or modify such infringing Application or Licensed Services, or any component thereof, with non-infringing products or services satisfactory to VITA. And in addition, Supplier shall provide any Authorized User with a comparable temporary replacement Application or reimburse VITA or any Authorized User for the reasonable costs incurred by VITA or such Authorized User in obtaining an alternative product or service in the

event such Authorized User cannot use the affected Application. If Supplier cannot accomplish any of the foregoing within a reasonable time and at commercially reasonable rates, then Supplier shall accept the return of the infringing component of the Application or Licensed Services, along with any other components of any products rendered unusable by any Authorized User as a result of the infringing component, and refund the price paid to Supplier for such components.

EXCEPT WITH REGARD TO CLAIMS FOR PROPERTY DAMAGE, PERSONAL INJURY OR INFRINGEMENT, AND THE INDEMNIFICATION AND CONFIDENTIALITY OBLIGATIONS, AND LOSS OF CONTENT DUE TO SUPPLIER'S FAILURE TO EXECUTE ITS OBLIGATIONS TO BACK UP SUCH CONTENT, WITH RESPECT TO EACH OF WHICH LIABILITY SHALL NOT BE LIMITED PURSUANT TO THIS SECTION, IN NO EVENT WILL ANY PARTY BE LIABLE TO ANY OTHER PARTY (OR THE INDEMNIFIED PARTIES OF SUCH PARTY) FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, INCLUDING (WITHOUT LIMITATION) LOSS OF PROFIT, INCOME OR SAVINGS, EVEN IF ADVISED OF THE POSSIBILITY THEREOF, EXCEPT WHEN SUCH DAMAGES ARE CAUSED BY THE GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF THE PARTY, ITS EMPLOYEES, AGENTS OR SUBCONTRACTORS.

20. INSURANCE

In addition to the insurance coverage required by law as referenced in the Incorporated Contractual Provisions section of this Contract, Supplier shall carry either errors and omissions insurance coverage in the amount of \$2,000,000 per occurrence. or Directors & Officers insurance coverage in the amount of at least \$1,000,000.

Supplier further agrees to comply with all provisions of the relevant Authorized User's then-current security procedures as are pertinent to Supplier's operation and which have been supplied to Supplier by such Authorized User. Supplier shall also comply with all applicable federal, state and local laws and regulations. For any individual Authorized User location, security procedures may include but not be limited to: background checks, records verification, photographing, and fingerprinting of Supplier's employees or agents. Supplier may, at any time, be required to execute and complete, for each individual Supplier employee or agent, additional forms which may include non-disclosure agreements to be signed by Supplier's employees or agents acknowledging that all Authorized User information with which such employees and agents come into contact while at the Authorized User site is confidential and proprietary. Any unauthorized release of proprietary information by the Supplier or an employee or agent of Supplier shall constitute a breach of this Contract.

Supplier shall indemnify, defend, and hold the Commonwealth, VITA, the Authorized User, their officers, directors, employees and agents harmless from and against any and all fines, penalties (whether criminal or civil), judgments, damages and assessments, including reasonable expenses suffered by, accrued against, or charged to or recoverable from the Commonwealth, VITA, the Authorized User, their officers, directors, agents or employees, on account of the failure of Supplier to perform its obligations pursuant to this Section.

22. BANKRUPTCY

If Supplier becomes insolvent, takes any step leading to its cessation as a going concern, fails to pay its debts as they become due, or ceases business operations continuously for longer than fifteen (15) business days, then VITA may immediately terminate this Contract, and an Authorized User may terminate an order, on notice to Supplier unless Supplier immediately gives VITA or such Authorized User adequate assurance of the future performance of this Contract or the applicable order. If bankruptcy proceedings are commenced with respect to Supplier, and if this Contract has not otherwise terminated, then VITA may suspend all further performance of this Contract until Supplier assumes this Contract and provides adequate assurance of performance thereof or rejects this

Contract pursuant to Section 365 of the Bankruptcy Code or any similar or successor provision, it being agreed by VITA and Supplier that this is an executory contract. Any such suspension of further performance by VITA pending Supplier's assumption or rejection shall not be a breach of this Contract, and shall not affect the rights of VITA or any Authorized User to pursue or enforce any of its rights under this Contract or otherwise.

23. STEERING COMMITTEE

In order to facilitate mutually beneficial contractual relationships with suppliers, VITA has procedures for establishing a steering committee ("Steering Committee"), which will consist of senior management personnel, including personnel involved in the contractual relationship, from VITA and Supplier.

The Steering Committee will meet within thirty (30) days of the Effective Date of this Contract and will meet annually thereafter during the term of the Contract, including any extension thereto. One or more additional meetings may be held at any time during the Contract term, should VITA, at its sole discretion, determine that a meeting(s) would be beneficial to the contractual relationship, and Supplier agrees to participate in such meeting(s). In addition, Supplier may at any time submit a written request to VITA for a meeting of the Steering Committee, which VITA will not unreasonably deny.

Supplier shall ensure the availability of the appropriate personnel to meet with the VITA contract management team. Additional Steering Committee meetings involving representatives from VITA, the Supplier, and an Authorized User may be required prior to or during performance on any specific Statement of Work issued pursuant to this Contract.

VIACK Client Services Analysts are experts in the set-up, installation and operation of VIA3 software. Each Analyst is fully capable of handling advanced issues as well as day to day questions and concerns

about the VIA3 software and receives training on all new features and functions that VIACK delivers. Our IT Operations management is also fully trained and expert in all aspects of VIA3 architecture, design and implementation and maintenance.

The VIACK Client Services team values our clients' satisfaction and success as our highest concern. In order to maintain our rapid response and resolution for our clients, we will hire additional personnel as business volume demands.

a). When it is necessary to escalate an issue to our Tier III IT Operations, Engineering and Development resources, VIACK makes the process as quick and painless as possible. Clients may contact our Client Services department at any time to report a service issue via phone (866-265-8060) or email (support@viack.com) or submit a request online (https://www.viack.com/support/help_request.aspx). Once a service issue is reported, Client Services will make every attempt to resolve the service issue on the first contact. If the service issue moves to an escalation, Client Services will gather data on the problem and escalate it to the VIACK IT Operations team within 4 hours of the report of the service issue.

b). Each member of our Client Services staff is highly knowledgeable in VIA3 as well as Windows environments. All contacts to Client Services are responded to within 4 hours of entry, and many of these are resolved within a first contact basis. Reported troubles that reach beyond a 4-hour resolution point, are escalated to our IT Operations/Engineering and Development team.

c). When a service issue is reported, Client Services will first make sure that there is a full understanding of the service issue, and will then attempt to reproduce the service issue with the client. Once reproduced, Client Services will troubleshoot the service issue until resolution, at which point Client Services will duplicate the reproduction steps and ensure the service issue does not occur again, all while remaining in constant contact with the client.

d). VIACK Engineering and IT Operations personnel constantly monitor the VIA3 Assured Collaboration Service (VIACK-hosted). If and when a service outage were to be recorded, IT Operations personnel--available on a 24/7 basis, 365 days a year--will quickly react provide the necessary support. IT Operations personnel regularly monitor server CPU utilization; network connectivity; and disk space and database diagnostics. Hot Standby databases are also constantly measured to ensure connectivity of data and availability. VIACK will utilize our extensive trouble ticketing system to log all service issues.

For the VIACK-hosted VIA3 Assured Collaboration Service, VIACK IT Operations staff will maintain the system in good working order throughout the contract term.

Software upgrades are easily activated from a Public Internet site. Users will automatically receive the latest version of VIA3 each time they log on to the VIA3 service at <https://www.viack.com/via3>. There are no additional charges for updates or new releases during the term of this contract.

CARE Team Support Services:

When it comes to software implementation, one size does not fit all. At VIACK we created the CARE (Client Adoption, Retention and Education) Team to address each customer's needs and to provide a comprehensive implementation approach that places the end-user at the center of our efforts. Included on the CARE team are representatives from the Education, Product Marketing, Client Services, Sales Operations, Sales and Marketing Communications Departments within our Corporate Business Development organization. Our implementation approach is unique in the industry and our training products are superior.

Implementation Approach

As each new client comes aboard, a CARE team representative meets with them to discuss how best to implement VIA3 within their organization. From this meeting, an implementation plan emerges, a timeline is set and the process begins. A typical implementation plan will include the following:

Welcome & Overview

After the VIA3 delivery order has been signed, your VIACK representative will introduce you to your VIACK CARE team. During the course of the first 30-days, your VIACK representative will work directly with you and with the VIACK CARE team to ensure an effective implementation is planned, set-up, and executed with the target user group.

Planning

At this step in the process, your VIACK representative will have an understanding of what you would like to accomplish with VIA3. Before the implementation can begin, the following will be coordinated with you:

- Users identified
- Equipment needs (headsets and web cameras) identified
- Set-up, installation and orientation activities scheduled
- Internal communication requirements explored (creating awareness and buy-in)
- Training needs identified (free online courses, or for-fee in-person and custom packages)

Equipment

To use the audio feature in VIA3, each user will need a full duplex sound device (soundcard or main board sound chip) and a headset/hands-free device (fitted with a microphone) designed for use with PCs for audio exchanges during meetings.

To use the video feature in VIA3, each user will also need a web camera. A list of hardware models that have been successfully tested and found compatible with VIA3 is maintained on our website, (www.viack.com). This list includes both new and old models. Other models may or may not work with VIA3. A VIACK Client Services Analyst, product marketing manager or engineer is also available to assist with the selection of this equipment and to offer advice as to its installation.

User Orientation & Training

Behavior change and adoption are the critical factors in any new software package rollout. People learn software by trying it out, by using it and by receiving support at key points in the process. The suggested VIA3 orientation and training program incorporates the following process:

Guided Set-up & Orientation – We guide users through the set-up, installation and orientation procedure, scheduled at a time of convenience.

Self-Paced Online Modules – VIACK's self-paced online training tutorials take a show-and-tell approach that incorporates narration, animated graphics and life-like interactions designed to give users practical experience using VIA3. For new VIA3 users, several modules are available. After the orientation session, each user will be able to independently join or start a VIA3 meeting; we encourage users to begin using VIA3. We also recommend that users go to our website and review our online tutorials under our VIA3 Training section.

Practice & Support – Several VIACK Client Services Analysts and other associates will have been added to the user's contact list during the orientation process, enabling immediate access to support and expertise.

Meeting – We encourage users to set a “target meeting” that will serve as the test run for implementing VIA3. Often it is a weekly staff or project meeting.

Owner Orientation & Training

VIA3 Account Owners have special access to administrative services through the website. The account owner orientation includes a complete hands-on review of all the resources available to manage your VIA3 account. The content covered includes:

Account information

Account usage monitoring

User management

Internal Marketing

All Web meeting systems are not created equal—they vary considerably in features, functionality and ease of use. Implementing a new software solution begins with creating awareness about its value, its use and its application. The VIACK CARE Team can provide marketing materials for this purpose and others.

Use & Adoption

At this step in the process, all of the users have had their equipment and VIA3 software running and they have been oriented to its effective use. VIA3 meetings are scheduled, held and evaluated. The VIACK CARE team will be available to support your meeting activities should issues arise.

Account Review

Once the user account has been activated, initial implementation completed, and the adoption phase has begun, the VIACK account team will provide information about the overall status of the VIA3 implementation. Depending on the size and scope of the implementation, these review meetings occur at regular intervals like 30, 60 and 90 days.

Specifically, the review meetings will cover:

Status on the user set-up and orientation process

Usage reports

Assessment of the progress in relationship to stated goals

Your VIACK representative will continue to work directly with you and with the VIACK CARE team to further validate the usability and applicability of VIA3 within your organization as further adoption takes place.

Training and Education Services:

The adage that people learn in different ways has never been more true than it is today. With current technologies, we can now create learning activities that adapt to more individual learning styles than ever before. To make the most of VIA3, it takes skilled guidance in using collaboration tools within your specific profession. VIACK's Training and Education team offers in-person and online educational venues to teach users how to smoothly integrate VIA3 into their daily work style. This educational portfolio includes online education, on-site education, and customization capabilities. All of the online materials are backed with a Learning Management System (LMS) to allow users to easily sort through and get the training they need, while tracking progress and book marking where they last left off. VIACK goes far beyond software training, teaching effective online meeting and collaboration practices that deliver results

and help users become familiar with VIA3 as an everyday office tool – a convenience users can turn to as easily and instinctively as their phone.

At VIACK, we offer our clients a comprehensive list of training options, from self-paced online modules to in-person based orientations. Get the training you need, when you need it and in a form most comfortable for you. Some of this training is provided as part of the pricing of the software; additional and enhanced training services may be purchased.

Online Training

VIA3 online training takes a show-and-tell approach that incorporates narration, animated graphics and life-like interactions designed to give the user practical experience using the software. VIA3 online training is available around the clock, free of charge, and is organized into six short tutorials.

How to Use VIA3 Online Training (2 – 4 minutes)

Learn how to navigate through the online modules to get the most out of your VIA3 training.

VIA3 Launchpad (10 – 15 Minutes)

The VIA3 Launchpad is the initial window that is displayed when a user logs on to VIA3. It is where all of VIA3 meeting "housekeeping" is done, including adding Contacts, and accepting meeting invitations and accessing Workspaces. In this module, we will explore the VIA3 Launchpad and the features most commonly used to prepare for and conduct VIA3 meetings.

VIA3 Meeting Manager (10 – 15 Minutes)

The Meeting Manager is the window that opens when a meeting is started. In this module, we will explore the VIA3 Meeting Manager Window and the tools most commonly used to conduct secure communication.

Workspaces in VIA3 (10 – 15 Minutes)

A Workspace is a secure web-based portal designed to connect users, processes and information all in one easy to use site. In this module, the user will learn how to use the Workspace feature including: how to log on, manage members, add files, set alerts, post discussion topics, and organize meetings.

Live View and Application Sharing in VIA3 (10 – 15 Minutes)

Live View in VIA3 is an application viewing tool that has the additional capability of enabling application sharing. With Live View, two or more users can see the same application and, if needed and permission is granted, share control. In this module, the user will learn how to use the Live View feature including: how to initiate a session, choose the appropriate screen display mode and begin the application sharing feature.

Whiteboard in VIA3 (10 – 15 Minutes)

The Whiteboard tool allows the user to create, display, and capture images that can enrich your online meetings. In this module, the user will learn how to use the Whiteboard tools for drawing lines, shapes, performing screen captures, and adding background images.

User Orientation Sessions

The purpose of the VIA3 orientation session is to provide new users with a brief overview of the software, to highlight the most commonly used tools and to enable them to readily join meetings. Client Services personnel will guide new users through a pre-scheduled 15 – 20 minute session and provide them with enough knowledge and experience to feel comfortable joining a VIA3 meeting. Sessions with multiple users are encouraged.

Online "Context Sensitive" Help File

Developed with the industry standard program RoboHelp, the VIA3 Help File is easily accessed by pushing the F1 key on a keyboard. This valuable resource is programmed with "context sensitivity" and will open to the specific content within the Help File that is related to where the user is within the VIA3 software.

Additionally the VIA3 Help File was designed with interactive graphics that provide users with a visual reference point for appropriate content. For example, one mouse click on the "Meet" icon will lead them to the appropriated content within the Help File. Any page within the Help File can be easily printed for later reference or users can print then entire Help File for use as a User's Guide.

Overview of Optional Customized Training (Fee-Based)

If desired by the Authorized User, VIACK offers additional training services, specially tailored to the needs of individuals, departments, and organizations, that may be purchased in addition to the training and education services that are included in the monthly seat license subscription referenced above.
