Contract Modification – Entry Level services

This contract modification is to add a new type of service, entry level services, to the seat management contract. These services NTE prices have been added to the ACS APM as reflected in table B-3, Entry Level Services. Actual prices will be based on comparable standards at the time of proposed services. The purpose of this modification is to provide a means by which an Agency may select to receive only the following services.

- Provide services to acquire COV approved computer hardware
- Provide hardware break/fix services in accordance with the service level selected:
 - SL '0' is defined as warranty level service based on the manufacturers written warranty. The agency performs necessary diagnostics to determine hardware problem and contacts the manufacturer for the parts required to correct the problem.
 - SL '1' and SL '2' are as originally defined in the ACS Administrative Procedures Manual.
- Provide disposal services for ACS owned assets upon refresh
- Provide inventory management of ACS assets

The 'basic', 'value-added' and 'enhanced' seat management services may continue to be purchased off the master contract.

This MODIFICATION #1 is an Agreement between the Commonwealth of Virginia, hereinafter referred to as "State" or "Commonwealth", ACS Government Solutions Group, Inc., hereinafter referred to as "Contractor", or "ACS". This Modification #1 is hereby incorporated into and made an integral part of the Agreement, VA-00920-ACSG

**MASTER CONTRACT
VA-000920-ACSG
BETWEEN
THE COMMONWEALTH OF VIRGINIA
AND
ACS GOVERNMENT SOLUTIONS GROUP, INC.**

1 SCOPE OF AGREEMENT

This is an agreement (the "Agreement" or "Contract") between the Commonwealth of Virginia hereinafter referred to as "Commonwealth", "State", or "DIT"(Department of Information Technology) and ACS Government Solutions Group, Inc., (the "Contractor"), a Maryland corporation having its principal place of business at One Curie Court, Rockville, Maryland, 20850 for the purchase of **Services** (Seat Management Services, "SMS").

This Master Agreement may be used by any state agency, institution of higher education, locality or political subdivision as defined in the Code of Virginia, local school division or other public body of the Commonwealth ("authorized users"). Each authorized user will be solely responsible for any obligations in connection with orders placed by that authorized user. **IN NO EVENT SHALL THE COMMONWEALTH OF VIRGINIA OR DIT HAVE ANY FINANCIAL RESPONSIBILITY FOR THE CONTRACTUAL OBLIGATIONS OF THE USERS (AS DEFINED ABOVE) UNDER THIS MASTER CONTRACT.**

This Master Agreement may not be used by students. It is the intent of both parties to aggressively pursue a subsequent agreement wherein students' rights and Contractor's provisions are further defined. It is intended that this subsequent agreement shall be an addendum to this Master Agreement. However this paragraph shall not be construed to require an agreement be reached or limit in any way the freedom of either party to determine the contractual content satisfactory to such party.

The Contractor's pricing as listed in Attachment A, hereto is **NOT TO EXCEED PRICING**. During the initial term and all renewals periods of this Master Agreement, the pricing shall not exceed the pricing as delineated in Attachment A. It is the intent of Attachment A to be dynamic and flexible so as to allow the Contractor to change prices according to the procedure as identified in Attachment A, and herein but at no time during the term will the prices exceed the prices as listed in Attachment A as of the date of execution on this Agreement for each configuration as delineated in the SMS COV Standards. This Agreement is effective September 20, 2000.

It is the intent of the parties that Attachment A or any other portion of the Agreement may be posted on the Contractor's web site and or the Commonwealth's web site. The Contractor may, from time to time and in accordance with this Agreement, use the web site as an opportunity to enhance its procedures or post additional information, or to identify updated pricing. These undertakings by the Contractor would be considered in every instance, more favorable to the Commonwealth. **ANY CHANGES TO THE CONTRACTOR'S WEB SITE DO NOT CONSTITUTE A CHANGE TO THE AGREEMENT.**

2 PURCHASE OPTION

In the event of termination for default, the Commonwealth may at its discretion purchase the Assets in place. The costs to the Commonwealth for the purchase can be calculated as defined in Attachment A, (The Administrative Procedures Manual). The purchase shall be for hardware, or equipment only and does not include Services or Software. Subsequent to the Commonwealth's purchase, all contractual obligations for that SEAT are terminated by both parties.

3 AUTHORIZED REPRESENTATIVES

This Contract may be modified in accordance with Section 11-55 of the Code of Virginia. The only representatives authorized to modify this Agreement on behalf of the Commonwealth and the Contractor are shown below.

4. ACCEPTANCE, TESTING AND COMPLIANCE WITH SPECIFICATIONS

To qualify for acceptance, all Services identified by a specific Order must concurrently perform in accordance with the technical specifications and functional descriptions, as contained or referenced in this Agreement, at an average effectiveness level of 95% or more, calculated over a period of 48 hours. Authorized users shall not pay any charges, either beforehand or retroactively, associated with the Contractor's requirement to achieve this performance level. If the Services do not meet the standard of performance during the 48 hour test, the acceptance period may continue on a day to day basis until all Services, comprising the Order, concurrently meet the 95% System Availability level, or authorized user may not accept the Contractor's Services identified by the Order, and the Order shall automatically terminate at no cost to the Commonwealth. In the absence of any correspondence from the Commonwealth that identifies non-conformance, the Contractor shall determine the Services, accepted by the Commonwealth.

Should it be necessary, the Commonwealth may delay the start of any individual acceptance test, but such a delay shall not exceed thirty consecutive days.

5. SITE AVAILABILITY and DELIVERY

The Commonwealth shall have the site or location ready for the Services to be installed at the time of delivery as identified in the Order. Should the Commonwealth not have the site available for Services at the agreed to date, then the Commonwealth entity may be charged a fee equal to the

Any equipment, materials, shall be delivered to the Commonwealth location FOB destination. Contractor shall arrange for delivery of the Services (equipment, hardware, or other), to the Commonwealth premises on the dates agreed to by both parties. The Commonwealth will not be financially obligated or responsible for any equipment, hardware, or other while stored on the Commonwealth property, until such is installed and considered Services.

Contractor's authorized representatives shall have access to Commonwealth's location during normal business hours in accordance with all security procedures for that specific location and as may be identified herein.

6. FIELD MODIFICATIONS AND OR ENGINEERING CHANGES

During the term of this Agreement, Contractor agrees to keep the Services provided hereunder at the latest OEM sponsored modifications and or engineering change. Such upgrades shall be made as soon as practical after the notification and or engineering change is announced by the OEM to the public, but in no event shall the modification and or engineering change be installed by Contractor later than thirty days after such notification. There shall be no charge to authorized user for any such modification and or engineering change. Notwithstanding the above, such changes shall be made at mutually agreeable times which will not impact the user's business operations.

7. MAINTENANCE

During the term of this Agreement, Contractor agrees to provide all labor, parts and travel necessary to maintain the Services at a Systems Availability level of 95% uptime. The Contractor shall provide on-site maintenance service for all equipment, in either of two Service Levels:

1. Service Level 1; Contractor acknowledges call within one (1) hour of receipt and problem is corrected within 24 hours of initial call. This correction may involve total or partial replacement of Asset or or component/s as necessary.
2. Service Level 2; Contractor acknowledges call within one half (1/2) hour of receipt and problem is corrected within 4 hours of initial call. This correction may involve total or partial replacement of Asset or component/s as necessary.

8. LIQUIDATED DAMAGES

The parties recognize that if delivery of the Services identified in the Agreement are not accomplished within the time limits above, authorized user's damages will be difficult to quantify. APPENDIX 2
To
Contract VA-000920-ACSG

a. SMS Cost Ratio (CR)

At no time during this agreement will the Contractor be allowed to exceed (NTE) the *Tangible* (hardware or other fixed asset costs) and *Intangible* (travel, service & labor costs, finance charges, etc.), cost components of each seat configuration (DG, DW, etc.) offered in the RFP cost proposal, except as provided herein. DIT will use the NTE prices in the following manner.

b. Manufacturer's website URL for Government purchase pricing

Tangible hardware prices for PC configurations shall be verifiable at the computer manufacturer's web site, from the manufacturer's published government (or educational, in the case of students) purchase prices for the models/components offered. DIT will use the published pricing to calculate a **SMS Cost Ratio (CR)**¹.

c. SMS Cost Ratio (CR) calculation and table

A table of CRs for each SMS Standard configuration is shown below. The CR will be determined by first calculating a **contract dollar amount (CDA)** equal to the Refresh period in months, multiplied by the Tangible monthly per-seat and/or per-server service price offered, for each minimum SMS Standard configuration (DG, DW, etc. w/o options/upgrades). The CR is then calculated by dividing the CDA by the manufacturer's current published **government purchase price (MPP)**. (Figures rounded to the nearest whole dollar.)

All subsequent *Tangible* cost component changes will be governed by the CR for the life of the Master Contract. Any new prices charged for product replacements, whether caused by manufacturer price changes, fee evaluation, obsolescence, refreshment or changes in the SMSCOV Standards, shall maintain the CR established by the original CR calculation described above.

The Tangible cost component prices and CR may also be used in any buyout calculations made or negotiated pursuant to the contract Terms and Conditions.

¹ **Example CR calculation:**
 Tangible cost component monthly price offered for configuration DG, with 36 month Refresh, SL1, is \$41.66.
 CDA= 36 mo. x \$41.66 = \$1499.76.
 The manufacturer's published government purchase price, for the same model, is \$1349.
 Therefore, (using rounded figures), CR = \$1500 / \$1349 = 1.11. (CR = CDA / MPP).
1.11 shall be the CR, for configuration DG, SL1 and shall be maintained for the life of the contract.
